## HAPPY WOMEN.

Wouldn't any woman be happy, After years of backache suffering, Days of misery, nights of unrest, The distress of urinary troubles, To find relief and cure? No reason why any reader Should suffer in the face of evidence like this:

Mrs. Almira A. Jackson, of East Front St., Traverse City, Mich., says: "For twenty years I was doctoring for kidney and liver trouble, but without benefit. Just before I began using Doan's Kidney Pills I was almost paralyzed. I could hardly stand on my feet because of the numbness and lack of circulation. Had a knife been thrust into my kidneys the pain could not have been more intense. My sleep was disturbed by visions of distorted figures. The kidney secretions were annoyingly irregular, and I was tortured with thirst and always bloated. I used seven boxes of Doan's Kidney Pills. The bloating subsided until I weighed 100 pounds less, could sleep like a child and was relieved of the pain and the irregularity of the kidney action. My circulation is good and I feel better in every way."

A FREE TRIAL of this great kidney medicine which cured Mrs. Jackson will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists, price 50 cents per box.

## Neglected Rheumatism Causes Paralysis

A Urico-Treatment Will in All Cases Remove the Cause.

Paralysis is a disease whose cause is shrouded in mystery. If you were to investigate carefully all cases of Paralysis you would find that at some time previous to the attack, the patient suffered from some form of rheumatism. Possibly like so many others, he thought it was only a slight matter of temporary inconvenience and paid no further attention to it. Rheumatism is not to be neglected with impunity. The Urico and poisonous Rheumatic acid must be neutralized and driven from the system as soon as they put in an appearance. Do this with Urico.

It is a harmless vegetable preparation and does not contain a single drop of poison. It operates by its action upon the blood, muscles and kidneys and drives the Rheumatic acid out of the system. We might give you testimonials from thousands of people in all parts of the country, but we would rather have you talk with some one whom you know and can believe. Next time you are down town, just drop into the store of Norway Drug Store, Norway, a popular druggist, and ask them about Urico. We won't predict when it will come, but we have confidence enough in the remedy to leave it to them.

Urico is not a cathartic, nor does it affect or distress the stomach in any way. Urico is a cure for Rheumatism and for Rheumatism only. It is why it is such a great success. It does one thing and does that one thing perfectly. It drives the Rheumatic acid out of the system, and out of the system it goes. Urico at 75c and \$1.00 a bottle, but you will find it very cheap when you see the results it produces. Urico is sold by Dr. J. H. Schenck & Son, Syracuse, N. Y. Sometimes they send an order on your druggist for a 75c bottle free of charge in reply to those requests for a sample.

**Harvest Moon.** Oh glorious Harvest moon, In God's own Heaven rest, Shine on fair moon, And let us not forget. Enchantment to the night you bring As an angel's smile above, It seems all mortals must confess As you smile down on us.

October days are fair to see, But oh, the nights I ween Do ever seem so dreary and blue. The full moon's silvery sheen. These beautiful days and winsome nights They bring to mind that all too soon Come winter's ice and snow.

Norway, Maine. HATTIE A. SMALL.

**HAITFORD.** Mrs. O. E. Turner is improving in health.

Mrs. T. E. Ryerson is improving somewhat in health.

Mrs. Madison Ford is entertaining a sister from Massachusetts.

Charles Canwell will not move out of town as was reported but has hired out in the mill at the Center.

Mr. A. Keene attended the wedding of Harry and Millie Saunders at Hebron, Oct. 10th.

Harvey, only child of Mr. and Mrs. James Billings, passed away Oct. 9th. He has been poorly all summer and failed rapidly the last few weeks. Services on Oct. 12th at the Congregationalist church, East Sumner.

**RUMFORD FALLS.** A. E. Morrison has moved into his spacious new residence on the corner of Pine street and Sixth avenue.

Fire was discovered in the residence of C. P. Eaton on Franklin street, Wednesday afternoon. The cause of the fire, which was discovered in some packing boxes in the cellar, is unknown. The house was insured and the loss will not exceed \$1,000.

The Cornell brothers have recently divided up their Allen farm on Franklin and Peru avenues into large sized house lots, and it is there that the village will come into being. These lots are located about a mile and a half from the island, and all front on Franklin or Peru avenues.

**Dumped into the Brook.** The wedding at Rumford Falls was over. Florence McKeeman had plighted her troth to Rufus Clark Darby. Their pledges had been exchanged. Congratulations had been offered.

The bride and groom had gone upstairs to get ready for their wedding journey. They succeeded in eluding their friends. At about 11 o'clock, slipping out by the back way, they had taken a carriage and had started for Bryant's morning train for Portland, where they were to meet Madam Darby and proceed on their way South, to their new home.

The horses were restive because of long standing and as soon as Mr. and the animals started on the wild run. The route selected led down Main avenue over a very deep hill with a sharp turn at the bottom of the hill. On the other side of the road is Swain brook and instead of taking the turn as they should, the horses, maddened by their fright, plunged into the brook. The carriage wheels hit against a large rock which completely overturned the carriage, throwing it over the horses' heads. The carriage landed bottom side up in the brook.

The occupants of the carriage were unconscious when they struck the brook and must have remained so for several seconds before the cold water revived them. Fortunately the brook is not very deep at this point and Mr. and Mrs. Darby were not seriously injured but badly bruised and wrenched, and drenched to the skin. The horses were hurt as they made their descent to the brook over a pile of broken and jagged rocks. The driver, also was injured slightly and the carriage was completely demolished. They waited till afternoon and started on their honeymoon via the Portland & Rumford Falls railroad.

**Deafness Cannot Be Cured** by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian tube. When this tube is inflamed you have a humming sound or imperfect hearing and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is not cured by local applications of any kind. We will give One Hundred Dollars for any case of deafness (not caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, Free.

**OXFORD.** Mrs. John Pattee.

The death of Mrs. John Pattee, who has been ill for over two years, occurred at the home on Main street, Wednesday night Oct. 10th. Mrs. Pattee had been confined to her bed for the past two months. An operation was performed last December in the hopes of saving her life but Mrs. Pattee was unable to rally on account of her general debilitated condition.

Mrs. Pattee was 61 years of age and leaves beside her husband, one daughter, Mrs. Herman Bumpus; two brothers, Joseph P. Foster of Bridgton and Bailey Foster of Lisbon Falls; and two sisters, Mrs. Henry Dumas of Fitchburg, Mass., and Mrs. O. D. Smith of West Hollis.

Mrs. Pattee with her husband and daughter had been a resident of the place for the past ten years. Before ill health compelled her to give up the work she assisted her husband in weaving the beautiful rugs, which, by the way, were of various patterns and designs.

The funeral services were held at the residence at 7:30 Saturday morning and were conducted by Rev. Frederick Newcomb, pastor of the Congregational church of which Mrs. Pattee was a member. The interment was at Bridgton, her old home.

As long as her health permitted Mrs. Pattee was a very active member of the T. A. Roberts Relief Corps and of the Sons of Temperance.

Dr. W. B. Haskell is having his piazza roofed.

John B. Robinson and Walter Wood attended Tuesday fair.

John McNeil and wife are on a hunting trip in the Galloway region with friends.

Mrs. Eunice Caldwell has returned from the Central Maine General hospital at Lewiston much improved.

Joseph Tunting worked at the S. E. King Co.'s store at Welchville during R. Staples' absence as clerk at South Paris.

John Newton of the Davis & Furber Co. of North Andover, Mass., is at work at the woolen mill changing over some of the machinery.

Alton Verrill has sold his place on High street to Linneus Millett, who will take possession immediately. Alton Verrill has formerly owned the place on Pigeon Hill formerly owned by Truman Dean.

Mr. and Mrs. Eugene Burns and Mr. and Mrs. George Wilder have returned from a two weeks' outing at Echo Camp, Richardson lake. They captured a deer of good size while there, saw two moose and report a pleasant outing.

This is the season of the year when the railroads run their cheap excursions to Boston and our thrifty and frugal citizens go down to the Hub and spend \$28 trying to save \$5.87 on the purchase of winter clothing which they might buy at home for less money.

## Children's Corner.

Wentworth's Location, N. H., Oct. 7, '06. DEAR EDITOR:—I am a little girl. I will be six years old next December. I have got three sisters. Their names and ages are Estella age sixteen, Grace age twelve years and Little Hazel age six months old.

For pets I have a calf and three sheep and two cats. The cats names are Fozzie and Ribbon. I have got four dolls. I live on a farm near the Swift Diamond.

My sister Grace has written to this paper and the letters were all printed so I thought I would try my luck. I wish to hear from any girls who want to write. I will answer all letters that I receive. Well, I will now close with a riddle: What is a pig making of himself when he is eating? From a little girl,

MISS EFFIE M. CRIMMINS.

**Uncle Sam in Cuba.**

Secretary of War, (as he has been facetiously called, Secretary of Peace) Taft appears to have met with great success in laying the dust which had begun to be so troublesome in Cuba. Not only has there been no attempt on the part of either disputant to resist American intervention, but the insurgent troops have displayed unexpected alacrity in laying down their arms and signifying their willingness to accept Secretary Taft's temporary government of the island. Not only this, but there is said to be a strong and growing sentiment in Cuba, as well as elsewhere, that the causes of peace and commercial advancement would be best subserved by the annexation of the island to the United States.

Messrs. Taft and Bacon have turned over the government to Charles E. Magoon, which was done by the issuance of a proclamation declaring that he had entered upon and would discharge the functions of government as directed by President Roosevelt by virtue of the authority of the Platt amendment.

The Rumford Fuel Company, organized at Rumford Falls, to deal in fuel; capital stock \$50,000; nothing paid in; par value, \$100; promoters, Elliott W. Hame, president; William H. Raye, treasurer; William P. H. Waterhouse, Rumford Falls.

**The Cause of Many Sudden Deaths.**

There is a disease prevailing in this country most dangerous because so deceptive. It is called kidney trouble. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

## East Hebron Grange Fair.

East Hebron Grange held its annual fair at the hall, Wednesday, Oct. 10th. The weather was not what was desired and the bills and posters had announced that if stormy the fair would be postponed until the next fair day. At an early hour the telephone bell began to tinkle and enquire if the fair would be held so it was decided to go ahead with it. By 10.30 the teams commenced to arrive. They came from Turner, Hebron, Auburn, Lewiston, Milot, Poland, Oxford, Paris, Sumner and Hartford.

There was a good display of fruit and vegetables in the hall. The collection was not large, but in quality. "Oh, my!" It was enough to make our mouths water. Then the ladies were out in force with the grand display of fancy work. The outdoor exercises were somewhat handicapped by the frequent showers. The drawing matches for horses were interesting. Fred Farris of Mechanic Falls carried away the honors in the heavy class. In the lighter class there were several entries among whom were Fred Keene, E. E. Conant, Guy Farris, Ward Harrington and Geo. H. Allen. Ward Harrington carried away the blue ribbon. In the evening an entertainment and social was given. The unanimous report was a good time enjoyed by all.

Lydia McKen visited her sister, Mrs. F. H. McAllister one day. Clarence Files and wife went to Norway recently.

Mrs. Merl McAllister and baby spent a day with Mrs. F. H. McAllister. Mr. and Mrs. Thomas Stearns of Lovell were at Moses Grover's recently.

The spelling reform, which suddenly became slightly epidemic a few weeks ago, now appears to have reached the stage where newspaper writers and advertisers, who adopted it, are carefully selecting their language so as to get along without using any of the simplified words, and from present indications the spelling reform fad seems likely to be dropped entirely in the near future by the general public.

## Some New England Superstitions

Gramp said that he knew we were going to have a dull day; for he heard it raining in the night about one o'clock, "and," said he, "I couldn't help thinking 'o' that old saying,

"Between twelve and two  
You can tell what the day will do."

"It may cloud up or clear off later in the night; but the day will be what it was between twelve and two. If our dog comes into the house and puts his head under the mat I'm certain sure there's goin' to be a cold snap, and it comes every time. When the wind dies down with the sunset it will blow again the next day. A thunderstorm ain't good for eggs that are under a hen hatching. The chickens are apt to be crazy."

"March winds and May sun,  
Make dun cloth white, and fair maids dun."

"I keep my young cattle in the pasture during the summer, but I bring 'em in when the weather is bad; and they know a great sight better than I do what the weather is going to be. They'll gather at the bars a good many hours before a storm comes—often when the sky ain't begun to show a sign of it."

"Dream of picking fruit out of season,  
And you'll quarrel without reason."

"When you're peelin' onions, hold a pin between your teeth and it'll prevent your cryin'. If you want to get rid of rats in the house, catch one and tar and feather it and turn it loose. All the rats will leave in a hurry. When I was a boy I'd sometimes play so hard I'd have a pain in my side. To cure it I'd lift up a stone, spit under it and put the stone back in its place. I wouldn't have any more trouble from the pain after that. If you begin to tell something and forget it what you were saying that is a sign it was true."

"Mend your clothes on your back,  
Poverty you'll never lack."

"When the world was new the devil spent a lot of time sewing it with stones. He carried the stones in his apron, and where you see spots that that they are, think you can know his apron strings broke there. To stop the houghs see how near you can hold your little fingers together without their touching. If you don't want to have the toothache, cut a little bit from each toe nail and finger nail. Then wrap the cuttings in a white paper or birch bark and put 'em in a hole by plugging and you won't have any trouble with aching teeth as long as you live, though this won't prevent your losing your teeth by decay. You can cure rheumatism by putting mustard in your shoes."

"If you have the stomach ache,  
Eat a piece of butter cake."

# JOHNSON'S

## ANODYNE

## LINIMENT

Instead of getting excited and sending in all directions for a doctor when pain next visits your household just remember that **Johnson's Anodyne Liniment** has for nearly a century cured both internal and external pains. A few drops taken on sugar quickly relieves and cures coughs, colds, croup, tonsillitis, bronchitis, asthma and other respiratory troubles; also cramps, colic, cholera, diarrhoea and other internal complaints requiring prompt treatment. When rubbed in well it banishes all external body aches and pains such as strains, sprains, lameness of muscles, muscular rheumatism, cuts, burns, insect bites and stings, frostbites, chaps, chilblains, and many other troubles that flesh is heir to.

Don't wait until trouble troubles you but be prepared for it by getting a bottle to-day. Sold everywhere.

25 cents—three times as much for 50 cents

## STOW.

Deer seem to be quite plenty this fall.

A. C. Andrews has lost a nice hog recently.

Mrs. M. E. Clay and sister visited at Q. W. Stevens, recently.

Mrs. Joseph Kimball has been having a severe time with the toothache.

We regret to hear Ed. Chase and family are soon to move to Conway, N. H.

Joseph Kimball, wife and daughter, Annie, attended the fair at Watford.

Not many stayed away from the Fryeburg fair. It was fine in every respect.

Mrs. Saphronia Bemis nearly 94 years old attended the Fryeburg fair. A very smart old lady.

James Smith and family are all very poorly from bad colds. Mr. Smith has the sympathy of all.

Mrs. M. E. Clay and sister, Helen Abbott, entertained relatives from Dover, N. H., and Delaware, recently.

Frank Emery, wife and little grandson, Mertrude Emerson, of Scarborough, have been visiting relatives and friends.

A terrific thunder shower in the evening of the 9th caused dishes to rattle and quite a shaking up. The lightning was something terrible. Also the 11th another shower accompanied with hail of which some were as large as birds' eggs.

The "Saxon" Sabbath.

After more than a century of abandon and vapid mirth, gay Paris is coming back to decency and decorum. Naturally the good work as far as it has gone, is not due to any initiative on the part of the Parisians themselves. The motive power which is driving Paris toward goodness is the new French government, which has found time among a variety of harder work, to compel the Parisian shopkeepers to give their employees at least one day of rest in a week. The new enactment does not specifically command that the Sabbath shall be the day of rest with all classes, for exceptions are made to bake shops and other employees who perform labors of necessity, because one must live and eat, even on the Lord's day. But no matter what the hired man or the hired girl may be engaged to perform, both he and she must have one day in seven when he or she is not obliged to do any work for pay or otherwise.

No Need to Worry.

Folks who have been worrying for fear the world's supply of coal will soon be exhausted may be cheered somewhat by the news of the discovery of one new vein of coal on the Philadelphia and Reading property in Pennsylvania one day last week, which will require half a century of constant mining to exhaust. Statistics show that the coal deposits in North America are estimated to exceed \$51,000,000 tons. China is supposed to have practically an inexhaustible supply. The deposits of North America are greater than those in Germany, Great Britain, France, Austria, Russia and Belgium combined, and nearly equal to the total of all Europe. According to the figures submitted, Germany has enough coal to last 2,000 years at the present rate of consumption, but Great Britain will be exhausted in the relatively short period of 400 years. From these figures it appears that the people of this generation need have no fears of a real scarcity of fuel.

The New York World.

Thrice-a-Week Edition.

Read Wherever the English Language Is Spoken.

The Thrice-a-Week World, now that a great Presidential campaign is shadowed, hopes to be a better paper than it has ever been before, and it has made its arrangements accordingly. Its news service covers the entire globe, and it reports everything fully, promptly and accurately. It is the only paper, not a daily which is as good as a daily and which will keep you as completely informed of what is happening throughout the world.

The Thrice-a-Week World is fair in its political reports. You can get the truth from its columns, whether you are Republican or Democrat, and that is what you want.

A special feature of the Thrice-a-Week World has always been its serial fiction. It publishes novels by the best authors in the world, novels which in book form sell for \$1.50 apiece, and its high standard in this respect will be maintained in the future as in the past.

THE THIRCE-A-WEEK WORLD'S regular subscription is only \$1.00 per year and this pays for 150 papers. We offer this unequalled newspaper and Norway ADVERTISER together for one year for \$2.20. Address, F. W. Sanborn, Norway, Mo. 30th

## WEST BETHEL.

J. E. Pike has newly shingled part of the roof of his house.

Mell Mason is quite often seen riding in a new automobile.

Mabel Scribner has gone to Boston on the excursion, this week.

A. J. Haskell is doing a good business at his cider mill at Bethel.

Gladya Kennagh of Sumner is here to visit her parents a few weeks.

Eda Fothergill of Berlin is visiting her uncle, W. A. Farwell, this week.

Mrs. W. A. Farwell is visiting relatives in Gorham and Berlin, N. H.

Fred Ordway has been quite sick for several days but is now improving.

Mrs. Josiah Connor of Albany visited her daughter in East Gilead a few days recently.

Mrs. Mary C. Lowell, who has been visiting her daughter and sister at South Paris for several days, has returned home.

Our station agent, Mr. O'Reilly, who has been on his annual vacation, will resume his duties at the station some time this week.

Sadio Yashaw, who has been away working as cook for a lumbering crew, on account of being sick was obliged to return home.

Daniel Morrill reports to your correspondent that he raised in his garden a pumpkin vine which came from one seed that its length including branches was 438 feet on which were a lot of pumpkins, their total weight being 174 pounds.

Cleo Swift celebrated her 5th birthday, Oct. 10th, by inviting her friends. A good number were present and had a general good time. She received quite a lot of presents. A grand treat of ice cream and cake, also watermelon was served during the time, which was enjoyed by all, and a good supply was sent to your correspondent for which he expresses his thanks.

## NORWAY CENTER.

D. A. Watson and wife visited her parents at West Bethel recently.

Mrs. Hattie Foster is quite sick. They have a large crew picking apples.

Walter Hobbs has been home for a few days, making arrangements for winter.

Hired help seems to be hard to get, yet we find there are plenty who want work and M. G. Richardson, W. W. Holt and Walter Hobbs have first-class help, and others can find a plenty if they look in the right places.

October came bright and warm. The first real cold weather came the 11th, which brought quite a squall of snow and hail, then we had three nights in succession when water as well as vegetation froze. Since then it has been warm again, just the weather for farmers to work and gather in apples and garden vegetables.

## WEST SUMNER.

Mrs. Abigail Webster has been very sick but is better.

Horace Farrar went to Boston, Oct. 13th, for a vacation.

Arthur Bonney and wife went to Buckfield shopping one day last week.

Mrs. Effie Robinson has gone to West and South Paris and Norway on a visit.

A young people's meeting has been held at the Baptist church to be held at 3 p. m. every Sunday.

Mr. and Mrs. Cyrus Lawrence from Lawrence, Mass., have visited Mrs. Rosetta H. Ryerson this week.

Mr. and Mrs. Wm. Glover received a few days' visit last week from a daughter and husband from Livermore.

C. E. Dunham went away, Saturday, to meet his wife and little boy. They returned home, Monday night.

Mr. and Mrs. Hiram Howe went to Rumford Falls last week to spend the winter with their daughter, Mrs. L. P. Morrill.

Leroy Pulsifer is having a cellar dug in his orchard over which he is to put a building for the purpose of housing his apples each year.

Jerry Brackett, conductor on a street railway at Lewiston and Auburn, made a long and very agreeable call on Mr. and Mrs. John Heald, old acquaintances, last Tuesday.

Mrs. K. P. Bowker went to her daughter's, Mrs. E. E. Tuell's, last Sunday to spend this week. Mrs. Cynthia Bisbee is keeping house for Mr. Bowker while Mrs. Bowker is away.

J. A. Tuell has kept several hogs and shoots this summer. He had one killed last week which dressed 552 pounds. There were many who guessed on its weight before it was killed guesses ranging from 450 to 600.

We learn that James M. Buck and wife do not intend to move here into the house he bought of Arthur Bonney last spring, so Walter M. Chandler and family can remain in it if they wish. Neighbors will be sorry to have them move away.

## Supreme Judicial Court.

Continued from page 1.

P. Merrill and others gave just about the same testimony. Frank Carpenter of Dixfield had bought liquor there several times by the glass and in bottles.

The court ruled that St. John had introduced any evidence which went to show that Annie Siddell was concerned in the affair and instructed the jury to bring in a verdict of not guilty as far as she was concerned.

The jury brought a verdict of not guilty for Mrs. St. John and that Roland McPhee and Thomas Akers were guilty. McPhee was sentenced to pay a fine of \$100 and costs taxed at \$47.45 and 30 days in jail and in default of payment of fine and costs 60 days more in jail. Akers having entrance as a clerk at the place and not able to pay a fine was given 60 days in jail.

George E. Benson, who run a beer tent and also for a short time a gambling den at the Canton fair, was fined \$25 and costs taxed at \$12.35.

John Wiskont for common seller was fined \$100 and costs of \$176.58 and 30 days in jail, and for search and seizure \$100 and costs of \$10.94 and in default of payment 60 days in jail.

Viola Damon was granted a divorce from her husband, Bradley Damon, on account of cruel and abusive treatment. Mary E. Standish of Boston was granted a divorce from Charles P. Standish having come to West Paris and under the name of Stanley married again.

The case of William Nolan, an aged resident of Rumford, was tried on charge of having liquor deposited at his place. According to Nolan's story the liquor was left at his place while he was away from the house. He did not know it was liquor as he saw the parties afterwards and they told him it was a keg of pigs' feet. Stated that he wouldn't have had it there at all if he had known what it was.

Had never sold a glass of liquor in his life and being 77 years old didn't think he would begin now. Court instructed the jury that they should render a verdict of not guilty. Mr. Nolan was discharged.

Joseph Mitchell retracted his plea of not guilty to liquor and pleaded guilty. The case was continued for judgment. He gave \$500 bonds for his appearance at the March term of court.

A list of liquor cases are being ground out this term. Some of those not already mentioned are given here. Stanley Jontus of Rumford Falls retracted his plea of not guilty made in the Rumford Falls Municipal court. This was for intoxication. He paid a fine of \$5 and costs taxed at \$20.52 and was discharged.

Two appeals were granted. Mrs. Aquara Douglie of Rumford for single assault on motion of the county attorney.

William P. Ross of Rumford for unlawfully keeping intoxicating liquors with intent to sell was sentenced to 30 days in jail. On a search and seizure appealed case he was sentenced to 60 days in jail and \$100 and costs. In default of payment to 60 days additional.

The appeal case from the Norway Municipal court against Sewall Park of Paris for intoxication was continued to the March term on promise of future good behavior.

Joseph Lieman of Rumford indicted at the March term for depositing intoxicating liquors with intent to sell, paid a fine of \$100 and costs taxed at \$22.75 and was discharged.

Fred E. Tucker of Rumford on an indictment found against him at the last term for single sale was sentenced to 30 days in jail and in addition to pay a fine of \$50 and costs taxed at \$12.30. He paid the fine and costs and was committed. He was also indicted at this term for maintaining a liquor nuisance and paid a fine of \$200 and costs taxed at \$25.31.

Bertha West of Rumford indicted at this term with one Claude W. Schoppert, who had gone out of the State, for adultery, pleaded guilty. The case was continued to the March term and she was discharged on her own recognizance.

Amos A. Buck of Paris, who has been in jail for several months on the charge of larceny, having been bound over to the grand jury, was discharged on condition that he should remain in the place until he had paid the fine of \$25.31.

Mike J. Nelligan for maintaining a nuisance was sentenced to two months in jail.

Wednesday morning the civil docket was resumed, the first case being on two actions one of assumpsit and the other of trespass. Alfred Peck against Charles C. Davis with George D. Hazen of Oxford for Pearl and Charles E. Holt of Norway and John P. Swasey of Canton for Davis. Pearl had worked for Davis, they had been together for about 40 days. They had some trouble, Pearl went away one evening against the wish of Davis and defense claimed that he did not take care of his team and that his work was not satisfactory. The plaintiff stated that he got or so after having trouble with Davis he went to his room at John Kemp's to get his clothes and they were gone. He was told that Davis had taken them away. Did not go to see Davis but brought a writ of trespass before a trial judge. Defense claimed that the things were removed from this place where Davis had been boarding his men as he was changing his boarding place and took the things to the new place so they would not be lost. Also claimed that Pearl was paid all that was due him.

Chas. C. Davis, a farmer and lumberer of Oxford, was the first witness on the defense. Had no notice of Pearl's going away. Took the things from the Kemp place to the Stone place as he was moving his goods there, and later to his house. Joseph K. Edwards cooked for Mr. Davis in the winter of 1905. Knew of Pearl breaking a sled runner and of Davis paying him up and telling him that he didn't work any longer. Pearl came back the next week and staying at the camp over Sunday night said he was going to work around there until he got a job somewhere else. He met Pearl and told him where his things were. Chas. E. Bryson lives on the Stone farm, knew that Pearl was there at work for Davis while but could not fix any of the dates. Perley M. Martin lives at Oxford, worked for Mr. Davis in the winter of 1906. Pearl came to work a short time after he had been

Bartholomew B. Judkins of Norway, better known as Thollie, has become a sailor on the naphtha yacht of the New York Yacht Club. He is very skillful on the ropes of the four-masted rigging. This yacht went ashore on the shoals of Nantucket two weeks ago Monday.

Thomas P. Kneeland of Harrison brought to the ADVERTISER office, Saturday, a large hornet's nest about 12 inches in diameter. "Is it inhabited?" we inquired. "No, I think not," he said. "At least I have not seen any signs of it." We placed it safely on a shelf and it was not long in the warm atmosphere before we found out that there were hornets there a plenty. Mr. Kneeland says that the hornets' nests are all built low on the bushes or trees this year. This is a sure sign of an open winter. When they are built up high it is a sign there will be a good deal of snow.

A gentleman walked into one of the local stores. "I want a half pound of putty," he said. The putty was put up and he was told the price was 3 cents. The customer pulled out 2 cents, saying that it was all the change he had. He was again told the price was 3 cents. After some delay he produced a 25 cent piece. The merchant walked over to the cash register and was about to make the change, when the customer remarked, "It's pretty small but I suppose it's all right." The quarter was handed back to him and he was told it was all right. The merchant went about his work. After waiting around for a while the gentleman left the store and walked out. Who was the mean man in the trade?

Letter to Wm. A. Bicknell.

Norway, Maine.  
Dear Sir: A pound of good meat and no bone is worth more than a half-pound of meat and a half-pound of bone; but there are, as you say, a great many people who won't pay more than a certain price by the pound. Give 'em bone; that's right; give 'em plenty of bone! There are people who won't pay more than \$1.50 a gallon for paint; give 'em bone!

There's no better school than experience; cost is high; but the lesson is never forgotten.  
Let a man paint two houses alike, same size; one Devoe, the other that \$1.50 paint. He buys 10 gallons of each, and pays \$3 a day for labor. \$3 a day is \$3 a gallon, easier reckoning.  
He has to buy two gallons more of the \$1.50 paint; and has two gallons left of Devoe; 12 gallons \$1.50, \$18; 3 gallons \$1.75, \$5.25; \$4 more for "cheap" paint.  
He pays \$3 a gallon for painting; 8 gallons, \$24; 12 gallons, \$36; \$12 more for painting "cheap" paint.  
He'll pay the less-gallons paint after that. If people are slow to learn, it's because they keep on buying bone-meat. Give 'em plenty of bone. Yours truly

## Norway Grange.

Saturday there was an all-day meeting of the grange. In the forenoon the regular meeting of grange was held with an address on dairying by Prof. G. M. Gowell of the Maine Experiment station.

Dinner was served in the dining-room. After dinner a public meeting was held with the following program presented to a full hall:

Graphophone selection.  
Solo.....Elin Brown  
Recitation.....Edith Knichy  
Solo.....Walter Hobbs  
Paper.....Mrs. Carrie Roberts  
Mrs. Roberts was very interesting and treated of the beauties of flowers and their methods of culture ending with a pretty poem in keeping with the subject.

J. A. Roberts introduced the speaker, Prof. G. M. Gowell who spoke in part as follows:—The boys and girls leave the farm and go to the cities to seek employment or learn a trade because there doesn't seem to be anything in the country that they can carry on and earn the money that they can in the larger places. But there is something that they can do at home that will pay them well and without much capital invested.

The manufacturers buy the raw material and after running it through their machines they sell the finished product at a good profit and thus make their money and build up their industries. Just so can the farmer or other person interested procure the grain and using the machines they sell the finished product at a good profit and thus make their money and time invested.

At the experiment station we regard the poultry question such an important one that we have been studying it for many years.  
Lately the boys begin in a small way and keep increasing with the money earned year by year and in this way build up a large and paying industry. It costs according to tests made at the station \$1.45 a year to feed one hen and each hen laid an average of 144 eggs in a year. This makes the cost of producing the eggs about one cent each. The past two years eggs have sold at an average price of 27 cents a dozen, that is eggs cost about one cent and sell for 24 cents each. If a man keeps 100 hens on a farm which brings in about \$200 a year. And an extra \$200 would be welcomed on most any farm in the state.

An experiment was tried to see if they could increase the producing quality of the hens. We made trap nests so that we could learn what each hen produced. Taking each hen that laid over 100 eggs in the year we saved for producers and marked the nest.

The matter of feeding is a very important one. We used to feed our flocks mash but we have abandoned that. Our method now is to feed cracked corn in the morning, this we sprinkle in chaff so that they have to work to get it and about ten o'clock they are fed wheat and oats in the same manner. All along the side of the building is a long rack with mixtures of other feed that they eat at any time.

Chicks to live and grow well should be fed on wheat and corn thrown in the chaff so as to make them scratch and dig. At ten o'clock a mash should be fed to them in a trough or flat plates for five minutes and then taken away from them as they will eat all that is good for them in that time. At one o'clock give them grain in the trough. The feed that is in your judgement you thing they eat. At night feed them the mash for five minutes again. Part hard and part soft food should be fed to the chickens.

Green food is an important part of the hen's living. Those who can get them run in the fields need not worry about this as they will of course get all that they need. But if you have to shut them up you must provide green food for them. Turnips should be thrown in to them and also clover. The clover should be run through a hay cutter and cut as fine as possible. At the station last winter 2000 hens ate 75 pounds per day of this and we reckoned it as being equal to that many pounds of grain. The grain we have to buy and the clover we raised on the farm. Do not feed very much turnip at a time as it will cause looseness of the bowels. Don't feed them near what they will eat. We put four or five of the turnips in a pen of 100 hens each day. To keep the turnip clean drive a nail in the wall near enough the floor so that they can reach it and hang the turnip on it. They will eat the whole of it in this way.

Hens should have a good floor. On ours we have sand and about six inches of straw. This should be changed about once a week if the weather is damp or may go a little longer if the weather is pleasant.

Another important consideration is the question of housing them. The old method was to keep them in a warm too much so for their good. The house should not be warm enough so that in cold weather the frost will gather on the walls and in warmer will melt and run to the floor leaving it in a dirty condition. We keep 100 hens in a room 20 feet square. We built an elevated room 2 1/2 feet from the ground floor with three rows with a covering of duck that is buttoned down, with ventilators to let the surplus heat pass out. In this way they are kept in better condition than in any other way. This is for their sleeping room.

After this address the question was discussed and questions were asked by those present.

**Two Hogarth Pictures.**  
There are two pictures in Norway by the celebrated painter and engraver W. Hogarth. They are "Laughing Audience" and the "Sleepy Congregation," and this further description:  
When dullness mounts the sacred rostrum, And deals about his sleepy rostrum, Is there an eye awake? No—all submissive meet to sleep.  
Hogarth was noted for his expressive faces and these faces are studies. These pictures are very ancient and were given to a Dr. Goss of England by one of his patients, a Frenchman. When about to die he gave the doctor these two pictures. It is said he was a member of the French nobility. Dr. Goss afterwards came to America and brought the pictures. The doctor was Mrs. Jebec Buck's grandfather and the pictures are set down through the family to her as heirlooms. Mrs. Buck died a few years ago but is well remembered by many Norway people. Her adopted daughter, Lillian G. Buck now owns the picture. They are said to be very valuable.

**Art Exhibition.**  
At Concert hall, Saturday afternoon and evening was given a fine art exhibition of photographic and color reproductions from famous original paintings. The pictures covered a wide range of subjects, some showing important events in the history of our country; others

## WOMEN WHO CHARM

### HEALTH IS THE FIRST ESSENTIAL

It Helps Women to Win and Hold Men's Admiration, Respect and Love

Woman's greatest gift is the power to inspire admiration, respect, and love. There is a beauty in health which is more attractive to men than mere regularity of feature.

Mrs. Chas. F. Brown

To be a successful wife, to retain the love and admiration of her husband, and to be a woman's constant study. At the first indication of ill-health, painful or irregular periods, headache or backache, secure Lydia E. Pinkham's Vegetable Compound and begin its use.

Let Chas. F. Brown, Vice-President of the Mothers' Club, 27 Cedar Terrace, Hot Springs, Ark., writes:  
Dear Mrs. Pinkham:—

"For nine years I dragged through a miserable existence, suffering with inflammation and female weakness and worn out with pain and weariness. I once day noticed a state of affairs which I was, but which had been cured by Lydia E. Pinkham's Vegetable Compound, and I determined to try it. At the end of three months I was cured, and my husband fell in love with me all over again. Lydia E. Pinkham's Vegetable Compound built up my entire system, cured my trouble, and I felt like a new woman. I am sure it will make every suffering woman strong, well and happy, as it has me."

Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), displacement, inflammation or ulceration, that "bearing-down" feeling, dizziness, faintness, indigestion, or nervous prostration and weakness, by taking Lydia E. Pinkham's Vegetable Compound.

were picturesque scenes in America and Europe.  
Among the subjects which attracted considerable attention were: Approach to Venice, a color print made from the original painting in the National Gallery, London; Washington at Dorchester Heights, from the original painting in the Museum of fine Arts, Boston; Oren going to work, is a fine farming scene, the original of which is in the Louvre, Paris, and many others of equal interest, some two or three hundred being shown.

The exhibit was made by the Horace K. Turner & Co. of Boston, for the benefit of the school and was in charge of Mr. McArdle. Tables of candy and refreshments were provided and liberally patronized. During the evening the following program was given:

## Supreme Judicial Court.

The case of George W. Newcomb against Bernard Andrews with Hon. John E. Sawyer for plaintiff and Wright & Wheeler for defense was of much interest. The plaintiff is a lumber dealer and lives in Bridgton. The defendant is a Canton farmer. About two years ago the plaintiff purchased the standing pine and hemlock trees on some 100 acres of land. Before the purchase was made the parties went over the premises and the timber pointed out and the boundaries. On these questions and the conversation that took place and the representations made by the plaintiff, arose the controversy which led to the suit being brought. There is a certain brook which flows in a crooked course near the eastern boundary of the farm—a part being within the limits of defendant's land. The plaintiff's son also testified about the same. In fact, there was a four-acre tract in the center of the farm with some good hemlock timber on it which belonged to a Mr. Ludden. Plaintiff claims that he was led to believe that the soft growth on the farm was included in the purchase. He set up a portable mill and began to cut and saw the timber into boards. His men cut over the real line of Andrews' farm and the owners put a stop to it. The plaintiff purchased the land and went on with his operations, and failing to receive satisfaction of the defendant, he brought this suit to recover damages.

The defendant squarely denies the allegations of the plaintiff. He stated in evidence that he did not claim the standing growth on the four-acre lot mentioned. Mr. Nelson, civil engineer, testified to running the lines from deeds and it was not contradicted by either side that the actual line extended to the brook in all of its course.

The report of Hon. Wm. P. Whitehouse, referee in the suit of William Woodcock against John D. Dearborn, has been filed. The petition against John D. Dearborn, has been filed. The petition against John D. Dearborn, has been filed. The petition against John D. Dearborn, has been filed.

Friday the action of Martha J. Davis against Mosely J. Damon with Frederick Dyer for plaintiff and Wright & Wheeler for the defense was tried. This was an action of assumpsit for services as housekeeper of the defendant for about two years at \$3 a week. It appeared from the evidence that she performed the services claimed and even worked in the field at hoeing, haying, etc. She stated that there was an understanding when she went to the place to do work that she should take care of the defendant and have the property at his disposal. That she had asked for the proper writings several times and had been flatly refused. Therefore left the place and brought suit.

The amount claimed was \$200.94, some \$1700 being credited for sums that had been paid her for clothing for herself and child.  
The defendant flatly denied her statements as to making any contract with her whereby she was to have his property for taking care of him. Stated that she never said anything about pay until about four weeks before she left, then she stated that she thought that he ought to give her 50 cents a week. Her sister wanted her to go to her place to live and in consequence of her solicitations she went and on account of any refusal of his to make out the writings. He admitted that she had worked in the field but because she desired to but claimed that he never asked her to do so. Two witnesses were introduced by the defense who testified that plaintiff on one occasion had stated that she was not working for wages.

In the suit for deceit in the sale of standing timber of George W. Newcomb against Bernard Andrews the jury returned a verdict of \$100 damages for the plaintiff.  
Another suit by the same parties and growing out of the same transaction was heard by the court. It appeared that Mr. Newcomb wished to haul some of the logs cut by the Andrews parties to the river. Andrews objected to his driving across a certain part of his moving field, thereupon brought suit. During last winter the logs were hauled and disposed of by Adelbert Delano by agreement of the parties and he holds the proceeds under a certain agreement. The court gave judgment for the defendant and the plaintiff will carry the case to the full court.

The grand jury arose at 12 o'clock Saturday and of the twenty-five indictments which they found the following were made public:—Henry L. Farrington of Hartford for manslaughter; Edward H. Hutchins, Auburn, assault with dangerous weapon; State vs. Chas. B. Standish, Peru, bigamy; Vincent Nugues, Rumford, assault; State vs. Bertha West and Claude Seboffert, Rumford, adultery; State vs. James Deoster, Glenad, larceny; State vs. Albert Plant and others of Rumford, burglary; State vs. Irving Thompson and Mary Thompson, Woodstock, for making a nuisance.

This Friday the Hartford shooting case will be tried. This case is against Henry L. Farrington of Hartford, the ward master of the Soldiers' Home at Togus, who was held without bail by a trial justice for the shooting of his companion in a lumber camp at Hartford while on a furlough. He will be tried on a charge of manslaughter. When arrested Farrington admitted the shooting but claimed that he acted in self defense.  
Next Monday, the Cummings-Thompson case.

### SOUTH PARIS.

Visited Atlanta, Ga.  
The following is taken from the Vermont Standard, which will be of local interest as Mrs. Doubleday, nee Nellie Louise Cotton, was an Oxford county girl and grand-daughter of Hiram Fullin, Esq., of South Paris:

Dr. and Mrs. A. W. Doubleday (nee Nellie Cotton) of Boston, Mass., have just returned from a most enjoyable southern trip. They were present at the National Dental Association which has just held its convention at Atlanta, Georgia, Dr. Doubleday being one of the speakers. His address will be published in the Cosmos Magazine. The Governor of Georgia gave the Association a warm welcome and the city was most liberal with their hospitality to them. Among other things they gave them an old time Georgia barbecue at their Cold Spring Club grounds.

On arriving there they were greeted with bands of music and in the pit was a whole ox and eight lambs, slowly roasted to a finishing turn, showing that rich brown which has long been recognized as the greatest appetizer yet found. Dr. Doubleday says to realize and appreciate the deliciousness of the meat it must be tasted. It was a minimum of the visitors that had ever attended a barbecue before. On one of the days of the convention Mr. and Mrs. Williams Jennings Bryan were guests of the city and Dr. and Mrs. Doubleday the pleasure of shaking hands with them, and Mrs. Doubleday was present at the reception that the Atlanta Women's Club gave Mrs. Bryan which was a royal affair. A feature of interest to Dr. and Mrs. Doubleday was the U. S. Submarine boats they saw while visiting Newport News, Va. They also enjoyed Norfolk, Virginia Beach and Old Point Comfort.

### The Hunting Season Now On.

The Guide Law.—Non-resident sportsmen going into the woods to hunt or fish and to camp or kindle fires on the wild lands of the State, must be accompanied by a registered guide during the months of May, June, July, August, September, October and November.

People who keep places of resort for inland hunting or fishing parties are obliged to take out a license. No person shall engage in the business of guiding unless registered by the commissioners of inland fish and game.

All non-residents must first obtain a license before they can lawfully hunt moose or deer in Maine. License fee is \$15.

Caribou are protected until October 15, 1911.

Moose.—Between October 15, and December 1, any sportsman may legally, in the first proudest non-resident hunting license, kill one bull moose having at least two prongs on his horns. Cow and calves are protected at all time. Penalty for killing more than one moose is a fine not less than \$500 nor more than \$1,000, or imprisonment for more than four months. Moose meat cannot be sold or given away for transportation out of the state; penalty \$100.

Deer.—Between October 1 and December 15, any sportsman may legally if he first procures a non-resident hunting license, kill two deer. The only legal way of killing deer is shooting. Deer meat cannot be given away or sold for transportation out of the state; penalty, \$100.

Game Birds.—Open season on wood duck, dusky duck, teal and gray duck, September 1 to December 1; for ruffed grouse (partridge) and woodcock, September 15 to December 1; for plover, snipe and sandpipers, from August 1 to May 1; quail are now protected at all times—it is unlawful to hunt, kill or have in possession at any time; penalty for illegal killing any of the above mentioned birds, not less than \$5 nor more than \$10 and costs for each bird killed in violation of law. Not more than 15 of each variety of the above birds can be legally killed in one day, except sandpipers, of which it shall be lawful to kill not exceeding 70 in one day. No duck, woodcock or partridge can be killed except for consumption within this state, except that a non-resident who has lawfully in his possession a pair of these birds may ship them to his home out of the state by tagging them with a special transportation license which costs fifty cents.

Bears, Wolves and Wildcats.—These animals can be legally hunted whenever found. There is a bounty of \$5.00 on wolves.

Mink, Sable, Muskrat and Fisher.—Open time is from October 15 to May 1. Beaver can be killed only upon written permit of the Commissioners.

No close time on raccoons and foxes. Rabbits.—Open season from September 1 to April 1 following. Snakes and traps cannot be used in hunting them.

Gray squirrel, red squirrel and chipmunk protected at all times in Knox county. No close time in other counties.

Dogs cannot be used for the hunting of moose or deer. Penalty, \$100.

No moose or deer belonging to a non-resident can be transported out of the state unless tagged with the proper tags from his hunting license. The owner of the game must present to a transportation agent his hunting license, and the agent must thereupon detach the proper coupons and attach them to the game.

A non-resident is not now obliged to accompany and identify his game. After the tags from his hunting license have been detached by the express agent and attached to the game the owner need give no further care to it. Non-residents are not obliged to identify their game at Bangor or any other point, as heretofore. Penalty for hunting moose or deer without a license is not less than \$25 nor more than \$100 and costs.

### Paint Adds Value to Property

For every dollar's worth of paint—good paint—you put on your house, you add several dollars to its value, for the difference in price which property in good repair will bring over a shabby building is by no means measured by the actual cost of the improvement.

In this calculation we have not included the insurance feature—the saving of the property from decay.

Good paint looks well, protects well, lasts well.

There are many imitations of paint which do none of these things, yet cost as much or more than straight white lead and linseed oil, the best paint.

### Aching Feet

Broken Arches, Tired, Red and Swollen

Frederick F. Smith, 24 Francis Street, Roxbury, Mass., says: "My feet were swollen twice their size, and I could not even keep a stocking on. I bathed my feet one night with that liquid X-Zalia, and in the morning the pain was entirely gone and I had no trouble getting into my boots." Do your feet swell up, grow red and ache? Are your arches broken down? Do they get so tired they actually twitch with nervousness? Then simply bathe them with this liquid X-Zalia. Takes out all soreness and inflammation.

# Housekeepers

have been vexed when using cream of tartar and soda to find their work uneven. If sometimes good, at others the biscuit and cake will be heavy or sour or full of lumps of soda that set the teeth on edge. Flour, eggs and butter wasted. This is because the cream of tartar is adulterated or cannot be used in the proper proportions. Food always sweet and light can be assured only by the use of Royal Baking Powder exclusively. Royal is absolutely pure and healthful and does even work at every baking.

## WEST PARIS.

**Nelson Stevens.**

Nelson Stevens, one of our respected citizens, who died last week Tuesday, of which was given a brief note in last week's items, has for many years been in failing health. The past two years he has been almost helpless from paralysis, during which time he has been faithfully cared for by his family.

Mr. Stevens was born in Maidstone, Vt., May 28, 1837, and was married in Newton, Mass., 43 years ago, March 10, to Mary A. Humphrey. Twenty-two years ago this month Mr. and Mrs. Stevens came here and since that time occupied the present homestead.

Mr. Stevens leaves a widow and four children, Cora E., wife of Eldron Stearns, Dwight L., of Auburn; Minnie E., who lives at home and Charles E., of North Paris.

The funeral service was held at the home Friday afternoon at 1 o'clock and was largely attended by neighbors and friends. Eight relatives came from Vermont, among them being two brothers and two sisters of the deceased. The service was conducted by Rev. Isabella MacDuff who spoke most appropriate and comforting words. There were many beautiful flowers expressive of the sympathy of neighbors and the regard of relatives and friends.

Mrs. Anna Young went to Portland, Saturday to visit her daughter.

Mr. and Mrs. S. W. Dunham are visiting their son in Brattleboro, Vt.

Mrs. Elva E. Locke returned last Saturday from a carriage drive to Bridgton. James Pledge will pay for fat pigs, live weight, 5c dressed, until further notice.

Mr. and Mrs. F. E. Lunt of West Somerville, Mass., have been visiting their cousins, Mr. and Mrs. Chas. Bates.

Mrs. J. R. Tucker took her daughter Eva to the Maine General Hospital in Portland for treatment last Saturday. Ruth Tucker will remain in the city with her sister.

The Good Will holds an extra meeting Thursday afternoon of this week on account of the Oxford Universalist association at South Paris which many of the members wish to attend.

Mrs. David Emmons went this week Wednesday to Boston where she will attend the World's W. C. T. U. convention. From there she will go to Philadelphia and Washington, D. C., to visit relatives and expects to remain until December.

There will be an all-day meeting of the West Paris Grange, Saturday, Oct. 27. They have extended an invitation to the State Master Obidiah Gardner of Rockland to visit them. It is hoped that as many of the members will be present as can come.

Mr. and Mrs. A. Bowker returned last Saturday from a pond each carrying a rifle which showed that they had been on a hunting excursion and that Mrs. Bowker did some shooting. They brought in three deer, two of which Mr. Bowker shot and the other—well Mrs. Bowker didn't shoot but another man who was with them shot it and let her have it.

## HIRAM.

The people of Sebago and Hiram will be glad to learn of the death of Rev. George P. Merrett of New York City, Monday night, after a short sickness with pneumonia. In 1895-6 Mr. Merrett was pastor of the Congregational church in Hiram and Sebago and did much for the spiritual welfare of the two places. He was a graduate of Mt. Herman school in 1895, Williams College in 1900, and a New York Divinity school in 1904. That same year he married Miss Wesleyan University graduate and took an extended wedding trip to his old home in England. After returning he accepted a pastorate in New York City, where he was residing at the time of his death.

## A Righteous Hold-Up.

Seth Clemmons started for the band meeting, Monday evening, and as he stepped from his father's doorway into the road he heard the corn rustling as though some one was handling it. He hadn't gone but a little way when he saw two men coming out of their corn. One of them bringing an armful of corn. Seth spoke to them and told them they had better leave the corn at the barn. All he got back was a few slang words, then they put tape to their horses and went on up the line. Seth went back to the house and took his father's large revolver and told his folks he would round them up before morning. He run line as fast as he could, and as the railroad and main road run side by side, he was pretty sure he would overtake them. He run half a mile before he came up with them and as they were driving fast he had to go some distance farther before he got ahead of them.

They saw him in the road ahead and they whipped their horses to get by. They mistrusted there might be something wrong. Seth stood in the middle of the road and ordered them to hold up. They halted and asked what the trouble was. Placing his revolver to their heads he told them they must carry the corn back and leave it at the barn. They begged and pleaded, said it was so far it would be too much for them to go back with the corn and they would settle with him for the corn if he would let them go on. They settled and paid pretty dear for the corn.
